Caroma is a leading manufacturer of sanitaryware. An extensive range of designs and technologically advanced products are available for commercial projects, renovations, homes, and the export market.

**About the Company**

Caroma USA, Caroma International, and Caroma Dorf are subsidiaries of GWA International, an Australian publicly listed company specializing in the manufacture and supply of high-end, technologically advanced building products.

Since 1941, Caroma’s leading-edge innovation has produced beautifully designed, water efficient bathroom products. Uncompromising investment in research and development and a commitment to water conservation led Caroma to become the world’s first company to commercialize development and production of dual flush toilets. Over the past 25 years, this technology has set new standards in water conservation throughout the sanitaryware industry – significantly reducing water usage in commercial and domestic bathrooms.

**Environment**

Caroma is acutely aware of the need to conserve the world’s natural resources. Through the years, Caroma has pioneered a number of significant product developments – and introduced the first, truly effective, two button dual flush toilet. In 1993, the first 1.6/0.8 gallon (6/3 liter) dual flush toilet offering water saving benefits on a scale previously unavailable anywhere in the world was introduced.

Caroma continually develops products which minimize impact on the environment, including a 1.28/0.8 gallon (4.8/3 liter) dual flush toilet, a high efficiency urinal (0.13 gallons per flush), a waterless urinal, and a high efficiency dual flush toilet with integrated sink.

**Caroma's dedication to staying a leader in the marketplace**

Caroma’s history of design and product leadership has been achieved by a total commitment to research and development in all areas of quality, aesthetics, and technical excellence. By constantly reviewing and updating the product range as the market or fashion dictates, Caroma continually provides the most comprehensive range of reliable, quality, and fashion coordinated bathroom products.

Guarantee of Product — North America

Caroma guarantees its product for a period of 2 years (24 months) as follows:

1. Caroma Industries products are covered by warranty for materials and workmanship only (subject to any province or state laws). Caroma shall not be liable for any loss, damage, expense or inconvenience of any kind incurred, sustained, or suffered by any purchaser as a result of any defect or default in the Caroma product to which this warranty relates. In particular (but not as to affect the generality of the foregoing), Caroma shall not be liable for any loss, damage, expense, or inconvenience arising from:

   a. the faulty installation of this Caroma product;

   b. the combination, integration, or operation of this Caroma product with product not manufactured by Caroma, for the purpose of forming a w.c. suite;

   c. where goods are used or adapted for a purpose for which they are not designed.

2. Caroma shall not be liable to replace any defective or faulty goods pursuant to Clause 1 of this warranty unless the purchaser proves to the satisfaction of Caroma that the goods were defective or faulty at the time when delivery was taken of them. Proof of purchase will be required prior to inspection.

3. No warranty condition, description or representation on the part of Caroma is given or implied by this After Sales and Service Information Sheet and any warranty condition description or representation as the state of quality or fitness for any purpose of the goods, whether expressed or implied by virtue, is hereby expressly excluded.

4. Statutory rights may vary from state to state or from province to province, in which case this warranty will not affect such statutory rights.

5. Should service be required, it is requested that a claim be made through the dealer or contractor from where the product was purchased.

Yours faithfully,
Caroma Industries Ltd.

Round Front Plus
1.6/0.8 gpf (6/3 l)
Dual Flush HET

A modern concept close coupled 1.6/0.8 gpf (6/3 l) Adelaide Cube 270 dual flush toilet featuring unique two button activation providing substantial water saving compared to standard toilets. Adjustable rough-in and smooth rounded contours for easy cleaning. The closet bowl has been designed with rough-in of 10" (255mm) to 12" (305mm) provided by plastic offset outlet connector option. The tank incorporates the high performance outlet valve which has been specially developed with the Adelaide Cube 270 bowl to ensure optimum reliable flushing performance. Due to the substantial water saving benefits achieved by the 1.6/0.8 gpf (6/3 l) dual flush system the toilet is suitable for multi-purpose applications where water conservation is important.

Closet Bowl: Adelaide Cube 270 1.6/0.8 gpf (6/3 l) full flush washdown closet bowl with open flushing rim.
Outlet: Floor mounted suitable for connection to waste outlet with offset plastic outlet connector for 10" (255mm) to 12" (305mm) rough-in.
Tank: Adelaide Cube Tank – has a free fitting lid and is suitable for domestic and light commercial applications. Vandal Resistant Conversion Kit – A simple to install conversion is available for the standard mechanism to lock lid onto the tank, recommended for use in heavy duty commercial areas. Code No. 413276.
Weight: 101 lbs (46 kg).
Water Control Valve: Standard Bottom Entry Tank – available as left hand inlet and incorporates a super quiet water control assembly. Internal overflow only.
Fixing: The tank is fixed directly to the closet bowl with a robust base fixing system without the need for wall fixing.
Color: White.
Dimensions: All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

A modern concept one piece toilet features an integral 1.6/0.8 gpf (6/3 l) Caravelle Easy Height One Piece dual flush washdown toilet. Installation to provide a seat height of between 17" to 19" (430 to 485mm) measured to the top of the toilet seat. The one piece toilet is designed with smooth rounded contours with a concealed outlet for easy cleaning and also features low profile push buttons. The tank incorporates a dual flush mechanism that has been specially developed with the Caravelle Easy Height One Piece toilet to ensure optimum flushing performance. Due to the substantial water saving benefits achieved by the 1.6/0.8 gpf (6/3 l) dual flush system, the toilet is suitable for multi-purpose applications.

**Toilet:** Caravelle Easy Height One Piece 1.6/0.8 gpf (6/3 l) full flush box rim.

**Outlet:**
Floor mounted suitable for connection to waste outlet with offset plastic outlet connector for 10" (255mm) to 12" (305mm) rough-in.

**Tank:**
The tank is an integral part of the toilet with a free fitting lid and is suitable for domestic and light commercial applications. Available in dual flush 1.6/0.8 gpf (6/3 l).

**Water Control Valve:** Standard Bottom Entry – available as left hand inlet which incorporates a super quiet water control assembly. Internal overflow only.

**Weight:** 99 lbs (45 kg).

**Fixing:**
The one piece toilet is bonded to the floor with an approved acetic-cured silicon caulking and fixed with corrosion resistant screws and closet bowl guard washers.

**Seats:**
The following Caroma seats are recommended: Detachable Code No. 301032, Easy Closing Code No. 326222, and Standard Code No. 326707.

**Colors:**
White and biscuit.

**Dimensions:**
All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

---

**Note:** All height dimensions to underside of bowl. Make allowance for bedding.

**Screw fixing:** The closet bowl should be bedded with an approved silicon caulking and fixed with corrosion resistant screws and closet bowl guard washers. Use Caroma screw fixing kit. Code No. 601150.

1.6/0.8 gpf (6/3 l)
Dual Flush HET

A modern concept close coupled 1.6/0.8 gpf (6/3 l) Sydney Low Profile 270 Elongated dual flush high efficiency toilet (HET) featuring unique two button activation providing substantial water saving compared to standard toilets. Adjustable rough-in and smooth rounded contours for easy cleaning. The closet bowl has been designed with rough-in of 10” (255mm) to 12” (305mm) provided by plastic offset outlet connector option. This tank is a low profile design for greater installation versatility which incorporates a high performance outlet valve that has been specially developed with the 270 elongated bowl to ensure optimum reliable flushing performance. Due to the substantial water saving benefits achieved by the 1.6/0.8 gpf (6/3 l) dual flush system, the toilet is suitable for multi-purpose applications where water conservation is important.

Closet Bowl: 270 Elongated 1.6/0.8 gpf (6/3 l) full flush washdown closet bowl with open flushing rim.
Outlet: Floor mounted suitable for connection to waste outlet with offset plastic outlet connector for 10” (255mm) to 12” (305mm) rough-in.
Tank: Sydney Low Profile Tank – has a free fitting lid and is suitable for domestic and light commercial applications. Vandal Resistant Conversion Kit – A simple to install conversion is available for the standard mechanism to lock lid onto the tank, recommended for use in heavy duty commercial areas. Code No. 750110.
Weight: 80 lbs (36 kg).
Water Control Valve: Standard Bottom Entry Tank – available as left hand inlet and incorporates a super quiet water control assembly. Internal overflow only.
Fixing: The tank is fixed directly to the closet bowl with a robust base fixing system without the need for wall fixing.
Color: White.
Dimensions: All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

Walvit
Elongated

1.6/0.8 gpf (6/3 l) Water Saving Dual Flush High Efficiency Toilet (HET)
Ultra Low Flush (ULF) Vitreous China Washdown Toilet
A classically styled box rim wall hung closet bowl featuring smooth sculptured contours and advantages of unobstructed floor for easy cleaning. The closet bowl features concealed shrouded outlet and closet bowl fixings providing optimum appearance to the wall. The Walvit Elongated closet bowl has been developed to be installed directly to the wall using the Sanifix bracketing system. The closet bowl is suitable for domestic and commercial applications.

**Closet Bowl:** Walvit Elongated 1.6 gal (6 l) full flush, wall hung, wash down type with box rim. Code No. 604119.

**Outlet:** Wall mounted outlet only, unvented.

**Inlet:** 2" (50mm) back inlet for concealed tank and flushvalve installation. Option top inlet S.M.O.

**Tanks:** Caroma Concealed Tank options are available: Invisi Inwall/Induct/Inceiling Tanks. Code No. 227006.

**Weight:** 116 lbs (53 kg).

**Fixing:** Sanifix bracket option available for fixing the Walvit Elongated closet bowl directly to the wall: D.715 Tank Chair Bracket Code No. 687715, fixing pack Code No. 687812.

**Seats:** The following Caroma seats are recommended: Elongated Code No. 326307, Elongated Soft Close Code No. 326221, and Commercial Code No. 326813.

**Color:** White.

**Dimensions:** All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
Note
The minimum wall thickness is dependent on the material and type of joint used to make the outlet connection.

Brisbane Semi-Recessed
Vitreous China Lavatories/Sinks
Nominal Size 15 3/4" (400mm) x 18 3/4" (475mm)
Brisbane
Semi-Recessed

Vitreous China Lavatories/Sinks
Lavatory Size: 15\(\frac{3}{4}\)" (400mm) x 18\(\frac{3}{4}\)" (475mm) (nominal)

A minimalist geometric designed semi-recessed vanity lavatory. The Brisbane Semi-Recessed has been designed to coordinate with other products in the Brisbane range. The lavatory is suitable for general purpose domestic and commercial applications. The lavatory is sealed to the countertop with an approved acetic cured silicon caulking.

**Faucet Holes:** The lavatory is available in one faucet hole Code No. 851518W and three faucet hole Code No. 851538.

**Drain Outlet:** Drain outlets use 1\(\frac{1}{4}\)" (32mm) diameter drain outlet assemblies.

**Bowl Capacity:** 0.66 gal (2.5 l) to overflow.

**Weight:** 24 lbs (11 kg).

**Overflow:** Rear overflow.

**Fixing:** D.250 Bracket with Tie Hooks: Supplied. Recommended for domestic and general commercial use. Two D.250 brackets are fixed to the underside of the counter top to secure the tie hooks which anchor the back of the lavatory to the counter top. The lavatory must be sealed to the top and front surface of the counter with an approved acetic cured silicon caulking. **Epoxy type glues must not be used.** The lavatory is supplied with a template which must be used for the countertop cut-out.

**Important:** For granite or marble tops, fix two 1" (20mm) thick wooden blocks in the bracket position on the underside of the granite/marble with fast setting two part epoxy. When fully set screw the brackets into position on the wooden blocks. Other suitable fastening systems may be used.

**Color:** White.

**Dimensions:** All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
Leda Vasque Semi-Recessed

Vitreous China Lavatories/Sink
Nominal Size 17" (430mm) diameter
**Leda Vasque**

**Semi-Recessed**

Vitreous China Lavatories/Sinks

Lavatory Size: 17" (430mm) diameter (nominal)

A premium designed new concept semi-recessed lavatory incorporating generous size and distinctive curved bowl area. The lavatory is sealed to the counter top with an approved acetic cured silicon caulking.

**Faucet Holes:** The lavatory is available in no faucet hole only, Code No. 661148.

**Drain Outlet:** Drain outlets use 1 1/4" (32mm) diameter drain outlet assemblies.

**Bowl Capacity:** 0.97 gal (3.7 l) to overflow.

**Overflow:** Rear overflow.

**Weight:** 16.5 lb (7.5 kg).

**Fixing:** An approved acetic cured silicon caulking is to be used to secure the lavatory to the counter top. **Epoxy type glues must not be used.** The lavatory is supplied with a template which must be used for the counter top cut-out.

**Colors:** White and biscuit.

**Dimensions:** All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

Epoxy type glues must not be used
Liano Semi-Recessed
Ceramic Lavatories/Sinks
Nominal Size 16\(\frac{1}{2}\)" (420mm) x 18\(\frac{1}{2}\)" (470mm)
The Liano Semi-Recessed lavatory has been designed to meet the needs of the designer market for prestige projects. An architectural minimalist style was adopted for the square Liano incorporating a generous bowl area and distinctive tapware platform. The lavatory is sealed to the countertop with an approved acetic cured silicon caulk.

**Faucet Holes:** Lavatory available in one faucet hole – centre option Code No. 661218 and three faucet hole – 8” option Code No. 661238.

**Drain Outlet:** Drain outlets use 11/4” (32mm) diameter drain outlet assemblies.

**Bowl Capacity:** 1.26 gal (4.8 l) to overflow.

**Weight:** 31 lbs (14 kg).

**Overflow:** Rear overflow.

**Fixing:** D.250 Bracket with Tie Hooks: Supplied. Recommended for domestic and general commercial use. Two D.250 brackets are fixed to the underside of the counter top to secure the tie hooks which anchor the back of the lavatory to the counter top. The lavatory must be sealed to the top and front surface of the counter with an approved acetic cured silicon caulk. **Epoxy type glues must not be used.** The lavatory is supplied with a template which must be used for the countertop cut-out. **Important:** For granite or marble tops, fix two 1” (20mm) thick wooden blocks in the bracket position on the underside of the granite/marble with fast setting two part epoxy. When fully set, screw the brackets into position on the wooden blocks. Other suitable fastening systems maybe used.

**Color:** White.

**Dimensions:** All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
Liano Self-Rimming

Vitreous China Lavatories/Sinks
Nominal Size 16\(\frac{3}{8}\)" (415mm) x 16\(\frac{3}{8}\)" (415mm)
The Liano Self-Rimming lavatory has been designed to meet the needs of the designer market for prestige projects. An architectural minimalist style was adopted for the square Liano incorporating a generous bowl area and distinctive tapware platform. The rim is sealed to the countertop with an acetic cured silicone caulking.

**Faucet Holes:** Lavatory available in: one faucet hole – centre option Code No. 664718 and three faucet hole 8” option Code No. 664738.

**Drain Outlet:** Drain outlets use 1 1/4” (32mm) diameter drain outlet assemblies.

**Bowl Capacity:** 1.26 gal (4.8 l) to overflow.

**Weight:** 31 lbs (14 kg).

**Overflow:** Rear overflow.

**Fixing:** The underside of the lavatory rim must be sealed to the countertop with an approved acetic cured silicon caulking. **Epoxy type glues must not be used.** The lavatory is supplied with a template which must be used for the countertop cut-out.

**Color:** White.

**Dimension:** All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

**Acetic cured silicon caulking**

**IMPORTANT:** Epoxy type glues must not be used.
Section 06

Lavatory/Sinks
Under Counter
Liano Under Counter

Vitreous China Lavatories/Sinks
Nominal Size 17" (430mm) x 17" (430mm)
Liano Under Counter

Vitreous China Lavatories/Sinks
Lavatory Size 17" (430mm) x 17" (430mm) (nominal)

The Liano Under Counter lavatory has been designed to meet the needs of the designer market for prestige projects. An architectural minimalist style was adopted for the square Liano. The lavatory is suitable for general purpose applications. The rim is sealed to the underside of the countertop with an acetic cured silicon caulking.

**Faucet Holes:** Available in no faucet hole Code No. 664208. The lavatory is intended for use with counter top or wall mounted tapware.

**Drain Outlet:** Drain outlets use 11/4" (32mm) diameter drain outlet assemblies.

**Installation:** The Liano Under Counter is suitable for installation under polyester, marble, natural stone, or other suitable impervious materials.

**Bowl Capacity:** 2.9 gal (9 l) to overflow.

**Weight:** 21 lbs (10 kg).

**Overflow:** Rear overflow.

**Fixing:**
- **Aluminium Clip Bracket** Code No. 813734 supplied as standard for fixing lavatory to marble or granite countertops.
- **Alloy Bracket** Code No. 811326 (not supplied) is available as an option for fixing lavatory to wooden counter tops. Four brackets are supplied with each lavatory and must be fixed to the underside of the countertop with appropriate fasteners. The rim of the lavatories must be sealed to the countertop with an approved acetic cured silicon caulking. **Epoxy type glues must not be used.**

The lavatory is supplied with a template which must be used for the countertop cut-out.

**Color:** White.

**Dimensions:** All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
Adelaide Wall Mount and Pedestal

Vitreous China Lavatories/Sinks
Nominal Size 197/8" (505mm) x 193/4" (500mm)
Adelaide
Wall Mount and Pedestal

Vitreous China Lavatories/Sinks
Lavatory Size: 197/8" (505mm) x 193/4" (500mm) (nominal)

The Adelaide wall lavatory is crafted from high density vitreous china. It is a modern lavatory design with a European influence. The lavatory features a round bowl with smooth lines for easy cleaning. The wall lavatory can be fitted with a matching shroud to conceal the pipe work or a matching pedestal.

Faucet Holes: Lavatory available in one faucet – centre option Code No. 861818 and three faucet 8" option Code No. 861838.

Drain Outlet: Drain outlets use 11/4" (32mm) diameter drain outlet assemblies.

Note: It is essential for the installation of the shroud to the lavatory that clearance is provided for the shroud in the plumbing setout from water inlet pipes and connections.

Bowl Capacity: 0.66 gals (2.5 l) to overflow.

Weight: 35 lbs (16kg).

Overflow: Rear overflow.

Fixing: D.200 Lavatory Fixing Kit: Supplied. Bolts directly to the finished wall.

Colors: White and biscuit.

Dimensions: All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

---

The finished floor and pedestal dimensions are as follows:

- Pedestal Code No. 812168
  - Hot water inlet centre: 10 3/8" (265mm)
  - Cold water inlet centres: 16 1/2" (418mm)
  - Flexible coupling: 300mm Yorkshire 1/2" x 1/2" Number 10

- Shroud inlet detail,约300mm flexible coupling Yorkshire 1/2" x 1/2" Number 10

Cube³ Ultra 0.13 gpf (0.5 Ipf)
Electronic Activation Urinal Suite
Smart Demand ‘Urine Sensing’ Flushing System
With Vitreous China Wall-Hung Box Rim Urinal
Cube³ Ultra
0.13 gpf (0.5 l)
HEU

A contemporary design fully integrated box rim, wall mounted urinal operating with a ultra low flush of 0.13 gpf (0.5 liter). The system incorporates a fully automatic electronic smart demand ‘Urine Sensing’ urinal suite featuring hands-free operation to give a combination of superior features in optimum user hygiene, water saving and vandal resistance. Cube³ Ultra combines the new smart demand flushing system with the Cube³ Ultra urinal ensuring optimal operational standards and efficiency. The sensor is concealed behind the urinal resulting in vandal resistant installation ideal for heavy-duty applications. The sensor device is factory fitted for ease of installation.

Inlet:
Back inlet for concealed nominal 1½” (20mm) diameter (stubbed down to ½”/12.7mm inlet) sparge pipe and compression rubber fitting.

Outlet:
The urinal trap is connected to wall waste pipe which allows for a simple push on urinal connection.

Inwall:
Automatic urinal flush system suitable for minimum cavity thickness of 4”(100mm).

Induct:
Automatic urinal flush system.

Inceiling:
Automatic urinal flush system.

Electronic Urinal Suite:

Flush Control Mechanism:
Smart demand ‘Urine Sensing’ operation with an integrated smart logic system, detects user and determines flush mode accordingly. The flush duration is adjustable to allow for the accurate determination of flush volume at varying pressures.

Stadium operation:
5 or more uses within a time period of three minutes = 1 flush/minute. Automatically reverts to normal usage at non-peak periods.

Hygienic Flush:
Hygienic flush every 24 hours prevents the trap seal from drying out.

Electronic Valve:
The operating voltage of the valve is 6 volts. The operation flow pressure of the valve is 43.5 to 72.5 psi (300 to 500 kPa) 98¹/₂’ to 164’ (30 to 50 metres head) with a minimum flow to the valve of 5.3 gallons/minute (20 litres/minute). The valve incorporates an integral airbreak system and shut off valve.

Battery operated:
Supply voltage-transformer. Operating current 9 volts (6 x 1.5v AA batteries).

Installation:
Provide conduit without kinks to connect the sensor cable to the control box. 3.5m of sensor cable supplied as standard. Minimum supply diameter of nominal 3/4” (20mm) is required to the valve.

Dimensions
All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues policy of continued improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

H₂Zero Waterless Urinal

Vitreous China Wall-Hung Urinal
Caroma H₂Zero
Waterless Urinal

A modern design wall mounted urinal providing superior waterless technology for optimum water efficiency. The Caroma H₂Zero™ waterless urinal has been designed to utilize unique cartridge technology. The patented cartridge incorporates a Bio Seal™ that opens during usage and self seals immediately after use allowing for discharge into a 2" liquid seal trap. A replaceable Bio Fresh deodorizing block maintains the aesthetics of the urinal bowl by assisting in the dissipation of uric salts and releasing a pleasant fragrance. The urinal incorporates concealed plumbing connections and easy to clean surfaces for minimum low cost maintenance. The metal grate is vandal resistant and a specially designed tool is used for the touch-free replacement of the Bio Seal and Bio Fresh deodorizing block.

Trap: The unique one way Bio Seal opens with usage and self seals immediately allowing for discharge into a 2" liquid seal trap.
Outlet: The urinal outlet is connected to a 2" (50mm) PVC DWV drain pipe connector.
Fixing: The Caroma H₂Zero waterless urinal is fixed to the wall with the D.400 concealed fixing bracket supplied.
Fittings: Vandal resistant metal grate supplied as standard.
Color: White.
Installation: The urinal must be installed in accordance with the American National Standard Uniform Plumbing Code. Local authorities have varying requirements.
Weight: 48 lb (22 kg).
Dimensions: All dimensions are in inches and millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
