

## **CAROMA AIDS LOS ANGELES SCHOOLS IN THEIR QUEST TO BE GREEN**

Caroma USA is partnering with Global Green's Green Schools initiative to help make two new charter high schools in South Los Angeles environmentally friendly. The Australian company is donating about 25 of its H2Zero waterless urinals to the Global Green Green Schools initiative. Two warehouses are being transformed into the schools, Animo Justice and Animo Ralph Bunche, both operated by Green Dot Public Schools. The schools are scheduled to open in September 2008.

Caroma made the donation in conjunction with its sponsorship of Global Green's Pre-Oscar® party in Los Angeles, February 20. The annual event, held just days before the Academy Awards, raises awareness about smart solutions to sustainable building, global warming and renewable energy. The star-studded concert event draws numerous A-list celebrities, including those active in Global Green, as well as civic and environment leaders in the Los Angeles community. Global Green is the U.S. affiliate of Green Cross International, the global environmental movement founded by Mikhail Gorbachev.

Derek Kirkpatrick, North American Manager, Caroma USA, said, "Global Green's annual Oscar Party shines a spotlight on the need for sustainable building practices that will have a long-term benefit in our communities. We are proud to align with Global Green in this cause."

Since pioneering dual flush technology 25 years ago, Caroma has become known for leading edge innovation and continually setting the standard in water conservation throughout the global sanitary ware industry. Caroma's extensive range of dual flush toilets, low flush urinals and waterless urinals are now widely available in the United States and Canada and recommended by facilities managers, architects, construction specifiers and water authorities coast to coast. Caroma product is installed in numerous college dormitories and in other campus facilities, including Harvard University, Dartmouth, Trinity College, Clemson, University of California Santa Barbara, Cal Poly, Trinity College, University of Maryland, University of Portland, Cal Tech, University of California Irvine and many more.
